 **ARCUSIN**
BALE HANDLING SOLUTIONS | 1976

For years, farmers who work with 3-tie bales have shouted the need for a bundler that could serve this market to increase their efficiency.

Now the MultiPack E14 is here and ready to deliver!

- 
 Get tight & aligned bundles to achieve **maximum storage efficiency**
- 
 Reduce the risk of bales being **damage** during storage or transportation
- 
 Increase your **loading capacity** by fitting more bales per load
- 
 Bundles are suited better for higher moisture, **with all bales being able to breathe**
- 
 Streamlined operation with **significant reduction in labor costs & bale handling logistics**
- 
 Offer **great convenience for your end user**, no need to handle bales individually

H	BUNDLES
14"	14 bales
15"	12 or 14 bales
16"	12 bales

*This measurement may vary depending on crop product and bale compression
